PREPARING FOR YOUR PEST TREATMENT

A small amount of preparation helps our technicians work safely and ensures your treatment delivers the best possible result.
The following guidelines are designed to protect your household, your pets, and the effectiveness of your service.

HOUSEHOLD PREPARATION CHECKLIST

Before your appointment please ensure:

- ✓ Clothes removed from washing lines
- ✓ Pet bowls, toys & feeding stations packed away
- ✓ Loose items moved away from walls
- ✓ Skirting boards & edges accessible
- ✗ No need to move furniture

OUTDOOR AREAS (If Applicable)

- ✓ Pets secured away from external treatment areas
- ✓ Gates unlocked or access arranged

DURING YOUR SERVICE

- ✓ People & pets must not be in the immediate area being treated
- ✓ Pets should be secured away from treatment zones
- ✓ Fish tanks & reptile enclosures should be covered if near by
- ✓ If an inspection or service is required in the roof void, our technician will ask you to turn the power off for safety reasons.

AFTER TREATMENT - DRY TIME

- ✓ Treatment areas must be fully dry before re-entry
- ✓ Drying time varies depending on conditions
- ✓ Your technician will advise when treated areas may be accessed again

AFTER TREATMENT - CLEANING & MOPPING

- ✓ **No mopping for 5-7 days**
- ✓ Includes robot mops & steam mops
- ✓ The longer treated surfaces remain undisturbed, the better the results
